

SALEM WATER DEPARTMENT

53 STANTON HILL ROAD, PoBox 214 SALEM, NY 12865

Phone and Fax 854-9712 --- Email salemvwd@verizon.net

December 13th Wednesday 7pm

- There are 311 meters in service.
- I had an issue with CNA labs on getting test results back and the Department of Health had to get involved to get the needed information. I have changed labs from CNA to JH Consulting. By making this change I hope to keep the Dept of Health happy. The 2nd and 3rd quarter tests look fine.
- Starting in December we will be doing a combined iron and manganese test quarterly along with our normal 1 from each well.
- Regular upkeep and maintenance was performed.
- Still working with Badger meter on our new read software. I hope it will be up and running soon so we can then start working on replacing meter heads to get a better read percent.
- Eye wash and Fire Extinguishers checks have been done.
- We did our monthly water sample required by the D.O.H. MET the bacteriological requirements for a public water supply as set forth in subpart 5-1.5 of the State Sanitary Code under Public Health Law 225.
- All fire hydrants are winterized. If used please notify the water dept.

Thank You,

Eric Rogers

Class C Water Plant Operator

Sorry for not being hear at this meeting. I am at the fire house tonight getting some FEMA training. Any issues or questions please call or email me. Thanks / Eric
